DOCKETED

NOV 18 2016

Docket: E-01345A-16-0036

E-01345A-16-0123

Date: 11/17/16

Doug Little
Commissioner
Arizona Corporation Commission
Commissioners Wing
1200 W. Washington - 2nd Floor
Phoenix, Arizona 85007

Dear Mr. Little:

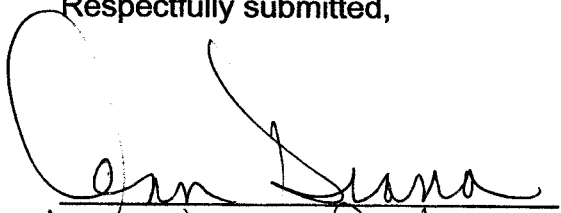

As an APS ratepayer and Sun City Resident, I strongly object to the APS recommendation for Mandatory Demand Charges.

With this mandatory demand charge, it could produce radically different charges every month. All of a sudden we would have spiked our kilowatt usage way up from what it normally is for a short period of time, but yet we are going to get stuck with a larger bill for that. I don't think that's right.

Residential demand charges are currently available as a choice. That is exactly where they belong.

Please vote against Mandatory Demand Charges.

Respectfully submitted,

1036 W. Bolivar Dr

Dear Arizona Corporation Commission Chairman Little,

My APS electric bills are already high enough!

Please say NO to APS' request to increase the monthly fixed charge and to raise many electric bills. Say "NO" to APS imposing on many a new mandatory "demand charge" making electric bills less predictable and more difficult to control.

There was no Social Security COLA in 2016. Prescriptions and medical costs keep going up. Why should APS get a bigger increase than we do on Social Security?

I should be able to predict and control the cost of my monthly electric bill. Please do not allow APS to impose mandatory "demand charges" making many electric bills harder to predict and control.

Please take this opportunity to help senior citizens on a fixed income manage their monthly expenditures.

Thank you.

I should pay fair electric rates and not a penny more. It is only fair that I should be able to predict and control the cost of my monthly electric bill.

I look forward to your action.

Thank you.

Bemant and Eddington can take a lower bonus payout and that would help the seniors a lot (their bonus for last year was 9 million for one and 11 million for the other, they both complained that they were not in the top 5 for bonuses).
A rate hike will only go to the higher bonus checks for these two.

Please say NO to APS' request to increase the monthly fixed charge and to raise many electric bills. Say "NO" to APS imposing on many a new mandatory "demand charge" making electric bills less predictable and more difficult to control.

There was no Social Security COLA in 2016. Prescriptions and medical costs keep going up. Why should APS get a bigger increase than we do on Social Security?

I should be able to predict and control the cost of my monthly electric bill. Please do not allow APS to impose mandatory "demand charges" making many electric bills harder to predict and control.

I should pay fair electric rates and not a penny more. It is only fair that I should be able to predict and control the cost of my monthly electric bill.

I look forward to your action.

Thank you.

This is ludicrous for APS [? a public utility?] --those of on fixed incomes will likely not be able to use air conditioning in the hotter/hottest months and those months are now longer with global warming. For those of us with severe respiratory issues this is nothing short of abuse. Please, no rate increases.

My husband just passed away quite suddenly and increases to my utilities, especially since my home is all electric, just adds to my stress. At my age, that is not something I need. APS does not need an increase in rates and certainly no "demand charge."

Please do not allow these increases and changes.

I should pay fair electric rates and not a penny more. It is only fair that I should be able to predict and control the cost of my monthly electric bill.

Dear Arizona Corporation Commission Chairman Little,

My APS electric bills are already high enough!

Please say NO to APS' request to increase the monthly fixed charge and to raise many electric bills. Say "NO" to APS imposing on many a new mandatory "demand charge" making electric bills less predictable and more difficult to control.

There was no Social Security COLA in 2016. Prescriptions and medical costs keep going up. Why should APS get a bigger increase than we do on Social Security?

I should be able to predict and control the cost of my monthly electric bill. Please do not allow APS to impose mandatory "demand charges" making many electric bills harder to predict and control.

I should pay fair electric rates and not a penny more. It is only fair that I should be able to predict and control the cost of my monthly electric bill.

I look forward to your action.

Thank you.

Sincerely,

Mr. Mark Bradshaw

I try to keep my usage low to be able to afford the bill. This will be a hardship to me!!!

Your pre-election ads claimed you were going to hold down costs for consumers. Now we are watching to see if you deliver!

I should pay fair electric rates and not a penny more. It is only fair that I should be able to predict and control the cost of my monthly electric bill.
